Tanning Equipment

Uvascan Suntube 60

This tanning booth will blow away your customers (and your competitors). The Uvascan Suntube booth has a steel structure with rugged, bright, easy-to-clean injection moulded exterior panels. The booth has (60) 230-watt VHR reflector lamps! Maximum tanning time is a mere (8) minutes. Acrylics over the lamps make it a snap to clean. Excellent ventilation is provided with a strong ceiling fan providing a direct updraft and discharge of the exhaust air. Retail cost of this unit is \$16,500. This test unit was run for ONE hour. Save yourself \$2700, delivered and installed, at \$13,800. We also include a one-year parts & labor warranty.
